## SUMMARY

Results-driven Full Stack Developer with 4+ years of experience in designing, developing, and maintaining scalable web applications. Expertise in Angular, React, Laravel, PHP, and RESTful APIs, with strong experience in CRM, ERP, E-commerce, billing systems, and digital marketing platforms. Proven ability to deliver secure, high-performance solutions, integrate payment gateways, optimize databases, and collaborate across teams to meet business goals.

## TECHNICAL SKILLS

Angular, React, JavaScript,  
jQuery, HTML5, CSS3,  
Bootstrap

PHP, Laravel, Lumen,  
CodeIgniter

MySQL, Advanced SQL  
Queries, Stored Procedures

REST APIs, Webhooks,  
SSO, Stripe, Razorpay

## PROFESSIONAL EXPERIENCE

### Angular Full Stack Developer

Octanics Pvt. Ltd. | 2022 – Present

- Developed and maintained **CRM management and digital marketing analytics systems** using **Angular, Laravel, Lumen, MySQL, Java, and Python**.
- Built scalable **frontend and backend modules** aligned with business and technical requirements.
- Designed and implemented **RESTful APIs and webhooks** for seamless third-party and internal system integrations.
- Integrated **Stripe and Razorpay payment gateways**, handling secure transactions, webhook callbacks, and payment status validation.
- Implemented **PDF generation features** for reports, invoices, and CRM documentation.
- Deployed applications on **AWS and cPanel**, managing environment setup and production releases.
- Supported **CI/CD pipelines using CircleCI** to automate builds and deployments.
- Contributed to **data processing, reporting, and analytics features** for CRM and marketing platforms.
- Mentored and trained junior developers, explaining **system architecture, workflows, and coding standards**.

### Associate Software Developer

Bunkinfotech | 2021 – 2022

- Developed web applications using **PHP, Laravel, CodeIgniter, and WordPress**, ensuring scalable and maintainable codebases.
- Created **custom WordPress themes and plugins** tailored to client requirements.
- Debugged and optimized existing websites to fix functional issues, UI bugs, and data inconsistencies.
- Designed and implemented **custom APIs** in PHP and WordPress for efficient data handling.
- Led **R&D initiatives** for advanced features such as **SSO integration and E-commerce platforms**.
- Integrated payment gateways including **Stripe and Razorpay**.
- Performed **security updates, performance tuning, and functional testing** prior to client delivery.
- Collaborated with designers and QA teams to ensure high-quality releases.

- Improved application performance, database efficiency, responsiveness, and cross-browser compatibility.

## TurboBusion – ERP Solution

**Tech:** Angular, Lumen, MySQL, Stripe, Razorpay

- Developed **Sales, CRM, Payroll, and Supply Chain modules** for a scalable ERP platform.
- Implemented **lead management, sales pipelines, customer tracking, payroll calculations, and inventory workflows**.
- Integrated **Stripe and Razorpay** with webhook-based payment verification.
- Designed **complex SQL queries** for high-volume reporting and analytics.
- Implemented **role-based access control** for secure module access.

## Jayram Pharma – Pharmacy Billing Software

**Tech:** Laravel, MySQL, Blade, JavaScript

- Built a **Laravel-based billing system** for pharmacy sales and invoicing.
- Designed database schemas for medicines, customers, and billing records.
- Implemented **dynamic invoice generation** with tax and discount calculations.
- Developed user-friendly interfaces using **Blade templates**.

## Accounting – Money Management Software

**Tech:** PHP, MySQL, JavaScript

- Developed modules for **income, expenses, accounts, and transactions**.
- Designed optimized **relational database models and stored procedures**.
- Implemented **PDF reports** for invoices and financial summaries.
- Ensured data accuracy through robust **validation and error handling**.

## Calculator Web Application

**Tech:** PHP, JavaScript, MySQL

- Built a web-based calculator supporting **basic and advanced mathematical operations**.
- Implemented **input validation, error handling, and calculation history tracking**.
- Optimized backend and frontend code for **fast and accurate calculations**.

## EDUCATION

|   |                         |                         |
|---|-------------------------|-------------------------|
| Bachelor of Computer Applications (B.C.A) | Magadh University       | Aug 2016 - Dec 2019     |
| Intermediate(12th)                        | P.Y.S.S College         | Apr 2013 - May 2015     |
| Matriculation(10th)                       | Dony Polo Public School | March 2012 - March 2013 |
