ADITYA KUMAR
Full Stack Developer (Laravel | React | Angular)

@ aditya04041998@gmail.com   https://www.linkedin.com/in/aditya-kumar-484a86163   Hyderabad

SUMMARY

I am a results-driven Full Stack Developer with over 3 years of experience in building scalable web applications, CRM/ERP systems, and high-performance websites. My expertise lies in technologies like Laravel, React, and Angular. I excel at developing RESTful APIs, optimizing performance, and ensuring secure deployments. I enjoy collaborating with teams and mentoring juniors to foster a productive work environment

EXPERIENCE

Full Stack Developer / Software Engineer

Octanics Software Pvt. Ltd

📅 01/2022 - Present   📍 Ahmedabad

Company specializing in software development solutions

- Developed and maintained a cloud-based ERP & CRM platform using Laravel, Lumen, Angular, and MySQL
- Designed and implemented RESTful APIs and webhooks for module integration and third-party communication
- Optimized API response time and database efficiency by ~30% through query optimization, caching, and refactoring
- Implemented PDF generation for invoices, reports, and CRM documents
- Integrated Stripe and Razorpay payment gateways with secure transaction handling
- Deployed applications on AWS and cPanel; managed CI/CD pipelines using CircleCI
- Collaborated with designers, QA engineers, and product teams to deliver high-quality features
- Trained and mentored junior developers on system architecture, workflows, and coding standards

Associate Software Developer

Bunk Infotech Pvt. Ltd

📅 01/2021 - 01/2022   📍 Patna

Tech firm focused on web and software development services

- Developed and maintained scalable web applications using PHP, Laravel, CodeIgniter, and WordPress
- Built custom WordPress themes and plugins tailored to client requirements
- Troubleshot and optimized existing websites, resolving performance, layout, and data issues
- Designed and implemented custom APIs in PHP and WordPress for efficient data handling
- Led R&D initiatives for complex features including SSO and E-commerce integrations
- Integrated payment gateways (Stripe, Razorpay) for online transactions
- Improved website performance, UI responsiveness, and cross-browser compatibility
- Conducted functional testing and provided security updates and maintenance
- Documented APIs, development workflows, and deployment processes

EDUCATION

Bachelor of Computer Application (BCA)

Admerit College

📅 01/2017 - 05/2020

KEY ACHIEVEMENTS

API Performance Improvement
Reduced API response time by 30% with query optimization and caching.

Developer Mentoring Success
Mentored 5 junior developers to improve coding standards and workflows.

Seamless Payment Integration
Integrated payment solutions processed over 10,000 transactions monthly.

On-time Project Delivery
Achieved 100% project delivery on time with efficient CI/CD practices.
